

Programming for Robotics

I, _____ (student F & L name) have read, understand, and agree to the Syllabus. I have also completed the 2016/17 School Year survey which officially enrolls me in the class. I realize that I must be present every day to qualify for the certification, but can make up days I am absent. I also understand that I can be penalized through methods including, but not limited to detention or temporary/permanent removal from the course if I can not obey the standard NPHS classroom rules or disrespect the classroom, materials, or teacher(s).

I, _____ (parent F & L name) have gone over the syllabus and 2016/17 School Year survey with my student, and have provided all information required for emergency contact, and realize that if my student or I selected an optional request for information in the survey, I will be contacted with a single email (per topic) on that information. I consent to my student participating in a course that occurs after normal school hours, and will do my best to ensure they will be present every Friday so they do not have to make up a class day.
